

### Vessel 'Jouke'

Work boat

#### General description

The "Jouke" was originally built as an offshore fast rescue craft (Alusafe 770 FRB). The main working area for the vessel is harbour and coastal use. The "Jouke" can be equipped with a dive system, see datasheet SRS set. For easy road transport a trailer is available.

#### Main data

<b>Length</b>	8150 mm
<b>Weight</b>	2720 mm
<b>Height</b>	2700 mm
<b>Weight</b>	2500 Kg
<b>Registration No.</b>	3-YG-266

#### Technical data

<b>Engine</b>	222 Hp Yanmar with Hamilton waterjet
<b>Speed loaded</b>	23 Kn
<b>Speed unloaded</b>	38 Kn
<b>Fuel</b>	Diesel 160 litre
<b>Range</b>	125 Nm
<b>Communication</b>	Icom IC-M423G VHG
<b>Navigation</b>	Seiva SW701cl GPS + plotter
<b>Access</b>	Diving ladder and rescue davit foot installed
